

WINNING AGAINST THE IRS AND HOW TO SUE FOR VIOLATIONS OF LAW FOR THEIR EXTORTION DEMANDS

Internal Revenue Tax Code (IRC) § 83 remains unknown to the accounting industry, the legal profession, and IRS personnel. HOWEVER, the courts say that § 83 is universally applicable and fundamentally governing:

“The amount taxable as ordinary income was the lesser of the fair market value of the stock ... over the individual’s cost of the stock. The language of the section [Tax Code § 83] covers the transfer of any property transferred in connection with the performance of services. The legislative history makes clear that Congress was aware that the Statute’s coverage extended beyond restricted stock plans for employees.”

US Tax Court (See Cohn v. Comm’r of IRS, 73 USTC 443, 446 (1979)).

“Section 83(a) explains how property received in exchange for services is taxed.”

Fifth Circuit (See Montelepre Systemed, Inc. v. Comm’r of IRS, 956 F.2d 496, 498 (CA5 1992)).

“At the heart of this case is I.R.C. § 83, which governs the taxation of property transferred in connection with the performance of services.”

Second Circuit (See Gudmundsson v. US, 634 F.3d 212 (CA2 2011)).

Ask your accountant, your attorney, or your employer’s payroll department manager - How did § 83 operate when you filed your last tax return? The IRS doesn’t even train on this statute.

"Section 83 provides for the determination of the amount to be included in gross income and the timing of the inclusion when property is transferred to an employee or independent contractor in connection with the performance of services."

IRC § 83 explains how to tax compensation for services, it “governs the taxation” of any and all compensation, but no accountant, IRS Agent, or attorney has the first clue about its existence. Perhaps a forgotten paragraph?! The courts say it’s integral and of primary importance, but one man has bothered to analyze its language, and found it to be so profound that he wrote

this manual about its proper application. Only the “*excess over the amount paid is gross income*” - The ramifications of this are so damning and sweeping the gov’t runs from questions about it.

Mr. David R. Myrland wrote a manual about in 1994, and added a 30 page epilogue in March 2014. His book - “The Code Breaker; The § 83 Equation”, is available through www.YourRemedyIsInTheLaw.com! Also at The BookPatch for \$65.00 (<http://www.thebookpatch.com/BookStore/the-code-breaker;-the-%C2%A7-83-equation/69bf2646-d399-441c-bcdb-7e758a470240?isbn=9781620309650>); and on Amazon as Kindle download for only \$14.99 – (<http://www.amazon.com/Code-Breaker-The-Equation-Forgotten-ebook/dp/B00MREHQB8>).

“The hardest thing in the world to understand is the income tax.”

Albert Einstein

Not any longer! Mr. Myrland's 1994 treatise on the differences between the Tax Code and the IRS has caused grand jury proceedings to close without an indictment.

Combined with Mr. Stephen Renfrow's book “**NO MORE TAXES**” would be an unbeatable combination. Mr. Renfrow's book (self publ. 1988) outlines why and how he has never paid income taxes in his entire life. His proof of concept is, two failed “audit attempts”; and when he was called in front of a judge in U.S. District Court, he walked out in less than 10 minutes still a free man! They do not contact him anymore!

You need to know how to effectively file Criminal Complaints against public servants who have violated the law under which they are governed. But first, you must know how to establish your record and rebut their presumptions and assumptions. His book is available at his website – (<http://nmt-psp.com>) for only \$29.95. Look for his CD, a must have resource, containing lots of information including both the NMT & PSP books, PowerPoints, videos, articles, IRS losing court cases, SSN info, etc.!
